

Playing business like a football game !

Lets play business the football way. The game of football is not a physical game only but there are lot of skills involved that can be implemented in business game as well.

Lets learn few skills from football !

- Kick start your business but watch out for your competitors in the field. Don't let them take away your opportunity.
- Be vigilant for opportunity out there, snatch it from others using your business skills.
- Team - Whether it is football or business, success comes with a team of right people. Follow the law of association and get a team of skilled people with same mindset.
- Training - Work hard and learn business skills. The more your practice, the more perfect you would become.
- Avoid malpractices else a red card is there for you. Follow right means and ethical business approach.
- Aim High - Look at your goal, how to reach there by passing or distributing authority and responsibilities among team members.
- Be healthy both physically and mentally to handle stress and managing tasks effectively and efficiently.
